VERACITY PAYMENT SOLUTIONS PARTNERS WITH SYSNET, OFFERING MERCHANTS A SINGLE SOLUTION FOR PCI DATA SECURITY STANDARD COMPLIANCE

ATLANTA – September 1, 2010 – Veracity Payment Solutions, Inc., headquartered in Atlanta, Georgia, is pleased to announce their partnership with Sysxnet Ltd., trading as Sysnet, a worldwide provider of information security assurance and payment card industry compliance services.

Sysnet provides professional services and Internet based tools to enable Acquiring Banks, Service Providers and Merchants to comply with Payment Card Industry Data Security Standard (PCI DSS) guidelines. “In selecting Sysnet, we were looking for an industry leading partner that would allow Veracity not only to deliver an all encompassing PCI DSS compliance solution, but a company that mirrors Veracity’s commitment to helping our customers achieve every aspect of their compliance requirements. We are fast becoming the experts in the field of PCI DSS compliance due to our relationship with Sysnet,” says Grant Putre, chief information officer with Veracity.

Veracity’s customers have the advantage of updating their PCI DSS compliance on an annual basis utilizing Sysnet’s user friendly, web-based portal known as Securus. This solution supports all requirements for PCI compliance with simple wizard-tools, regardless of merchant size or processing volume. Additionally, Veracity now has an in-house helpdesk to provide merchants with the expertise required to complete the PCI DSS certification process.

###

About Sysnet

Established in 1989, Sysnet is a leading provider of information security assurance and payment card industry compliance services worldwide. Sysnet offers a range of professional security services, including its proprietary web based compliance management product Securus, to a wide variety of businesses including Acquirers, International banks and government departments. Sysnet is a market leader in ISO 27001 services, vulnerability management and audit and assessment consulting through the Payment Card Industry Data Security Standards (PCI DSS) program. Headquartered in Dublin, Sysnet has established relationships with Banks, Service Providers and Merchants in over 30 countries worldwide.
